

Contents:

Kinetic and mechanistic studies of metal complexes of β - diketones - a review	01-05
Synthesis and biological activities of novel -4H-benzo[e][1,3]oxazin-4- one linked [1,2,3]-triazole derivatives	06-12
The effect of Methanol, Ethylacetate and N-hexane fractions of Combretum Obanense stem bark on rats in ethanol induced gastric ulcer and the phytochemistry constituent of the plant	13-16
Synthesis and Characterization of Nanocrystalline NiS & Application In Reduction Of Nitro To Amines	17-21
Ultrafiltration of Industrial Hardwood Kraft Black Liquor with Regenerated Cellulose Membrane	22-39
Synthesis of Photoconducting Polyimide of Indole-diphenyl amine Moiety	40-43
Antioxidant Investigation In Rats Administered Cobalt(Ii) Chelate Of 1-(5-Hydroxy-3-Methyl-1-Phenyl-1h-Pyrazol-4-Yl) (Phenyl) Methanone	44-50
Analysis of Heavy Metals Present in Roadside Soils in Lagos State Using Inductively Coupled Plasma Spectrophotometry	51-56
Characterization of fly ash based on their physical and chemical properties	57-61
