Date of Submission: 01-03-2022

Date of Acceptance: 11-03-2022

I. Introduction

Female entrepreneurs face a lot of challenges and in their profession. By providing the right vocational college for women (entrepreneurs), they can learn how to overcome the problems in the industry and the competition in the industry and talk about her products in the market folding a steady place for themselves.

The main purpose of providing vocational education in nalbari is to come to the people. Even though whites are interested in their profession with many different colors, they are leaving their profession without being able to face the society. That is why female vocational education is essential.

INDIA'S BIGGEST STARTUP INCUBATORS

Women Entrepreneurs T-hub in one of the India's biggest startup incubators are stimulate the women entrepreneurs. WE-hub headquarters in Hyderabad introduced a new membership plan for student women entrepreneurs. This is the exclusive platform to support and guide women entrepreneurs. "Women first, personality for all". Was the theme at the GES 2017. WE-hub eliminate the financial and help them to succeed in their enterprises. They plan to create an ECO-System all our the world for all entrepreneurs. In this plan entrepreneurs are clarifying their ideas and avoid mistakes. This is a guidelines for all women entrepreneurs.

OPPORTUNITY

This is the main opportunities for women entrepreneurs to get money to solve their satisfaction. Some opportunities are more valuable as like women are utilizes this opportunities as in a right path. For in this they can fulfill their needs. If they do these kinds of works women get knowledge, experience, skills and so any opportunities are this. So that they can get opportunity to get good job to increase their goals and solve their wants of satisfaction. Therefore these kinds of opportunities are getting in this work. So in this so many senses are having in these working fields.

PURPOSE

✓ The students perceived personal skills, attributes and abilities have a positive influence on students entrepreneurial inclination.

✓ The students personal independent learning approaches have a positive influence on students entrepreneurial

DATA COLLECTION

The data was collected from both primary and secondary sources. Primary data was collected through questionnaires' send to whatsapp group, e-mail, personally the respondents, them and taking inputs from them through a structured questionnaire.

Secondary data was collected through Textbooks; Journal, articles, Newspaper.

INTENTION OF WOMEN ENTREPRENEUR

Women intention is only for reach their goals to get money. For in this they solve their problems and to getting their needs. Some women workers are used that money for study purpose because of their family background. They went work and also continue their studies.

Some women's are married persons for in this case they also studding, working and manage their house also. So this kind of women entrepreneurs also enrolled in owner society. For this kind of women's having money problems. So there is no way to get money they want to serve and get money to solve their needs and satisfaction. Women take this job for next level of this peacefulness. They do this work for getting experience to get good job. The main intention only for reach their aim and to get good position in their life. So women's are like to do work for service to others. Many of the women's having the mental pressure so they do these kinds of works is help to get back from their life. So some women's are like to do this job mainly. Therefore these lines of intentions are having in women's mind.

FOUNDATION OF STUDY

During this changing periods, now-a-days, Indian women's are mostly like to come out this home and secure as a working women, but only very less works are available. Indian government, encourage them and increase women entrepreneurs. They improve more facilities to working women.

In India own women entrepreneurs are get increasing. The government provide this much of improvement but also cannot reach the economic level. However we get freedom also work entrepreneurs are suffering only. If women get work belonging to their education. We can reduce this kind of struggle and also every women can get job.

ORIGIN OF THE RESEARCH PROBLEM

The population of peoples, women's are only in majority. For Indian tradition all women's are want to adopt to their situation to been inside the house and take care of children's. Policies, maintenance of school nudity and social seruiees are also doing women's. The duties of women entrepreneurship mainly effected student women entrepreneurs are heavy effeited and their needs are not able to fulfilled. So this research is mainly focus on student women entrepreneur and also. If all women entrepreneurs are utilized their opportunities in a correct way or else any difficulties in it.

ANALYSIS AND INTERPRETATION OF DATA:

A Random sample of students was selected and asked their opinions about "Present Education system not focus on Entrepreneurship Development", the result are given below. The same number of each students of class group. Test the hypothesis at 5% level that opinions are independent of the class groupings.

| Class | Present Education System is Focus on Entrepreneurship Development | Present Education System is not Focus on Entrepreneurship Development | Total |
|-------|---|---|-------|
| UG | 90 | 10 | 100 |
| PG | 97 | 3 | 100 |
| Total | 187 | 13 | 200 |

H0: Present Education System is not Focus on Entrepreneurship Development.

H1: Present Education System is Focus on Entrepreneurship Development.

| O | E | (O-E) ² | $\frac{(O-E)^2}{E}$ |
|-------------------------|------|--------------------|---------------------|
| 90 | 93.5 | 12.25 | 0.131 |
| 97 | 93.5 | 12.25 | 0.131 |
| 10 | 6.5 | 12.25 | 0.1885 |
| 3 | 6.5 | 12.25 | 0.1885 |
| Calculated Value | | | 4.032 |

Table Value:

$$\begin{aligned}
 Df &= (R-1) * (C-1) \\
 &= (2-1) * (2-1) \\
 &= 1*1
 \end{aligned}$$

= 1

Table value is Df 1=3.841

Sol:

Hence calculated value is higher than the table value, so the Null hypothesis is Rejected.

Present Education System is Focus on Entrepreneurship Development.

II. Conclusion:

Female entrepreneurs at the end of this research article and how important their professional education. The study also found that the current vocational education system is very useful to the our education system. The vocational education system gives proper guidance to female entrepreneurs and presupposes a recognition for female entrepreneurs in the community.
