

Contents :

Study the Behaviour of the RCC Structure with different Grid pattern against Earthquake	01-06
Design of Fire Sprinkler System - A Review	07-09
Comparative Study of Conventional Bricks, Fly Ash Bricks and Bagasse Ash Bricks	10-14
Review on Mechanical Properties of M30 Concrete in addition with Steel Fiber and Jute Fiber	15-18
Numerical Investigation of Strengthening Alternatives for RC Members to Enhance Blast Resistance	19-32
Road Safety Analysis for Nashik District Rural Road Using Different Criteria	33-35
Green Building Evaluation System between China and South Africa. A Comparative Review	36-43
Optimisation of Individual Rubber Tapping Labour Supply Using Work-Study Method	44-58
Design of Thermoelectric Air Cooler: A Review	59-64
Experimental Study on the Mechanical Properties of M30 Concrete Mixed with Steel Fiber & Jute Fiber	65-70
