

Contents :

Hydrogen Fuel Cell: Alternative to conventional fuels	01-07
Parametric Optimisation of AA6082 Flow-Formed Tubes for Good Surface Finish	08-15
Feasibility Analysis of Lifeboat Safety Equipment (A Case Study on the Ship of MT. Lapetta)	16-19
Investigative Study of Recycled Aggregate Concrete as a Sustainable Waste Management Strategy in Nigeria	20-26
Evaluation the Aquifer Hydraulic Parameters of Wadi Nyala, South Darfur State, Sudan	27-34
Design And Acoustic Analysis Of N8 Chevron Nozzle With Varied Tip Angle (β)	35-38
Drop Test Simulation in Solid Works	39-42
Experimental Study on Ternary Blended Fast Setting High Early Strength Self Compacting Cement Mortars	43-55
The Rice Sort Machine Design to Improve Rice Granules Quality	56-62
Slurry erosion wear behaviour of plasma sprayed Cr2O3 & Cr3C2 Coatings deposited on mild Steel substrate	63-70
