

Contents :

New Approaches For Finding Roots Of Nonlinear Equations Utilizing Means	01-07
Experimental Investigation On The Mechanical Properties Of African Fan Palm (Borassus Aethiopum)	08-17
Design And Development Of Semi-Autonomous Arduino Based Fire Extinguishing Robot	18-26
Finite Element Analysis Of A Pressure Vessel Subjected To Uniform Internal Pressure	27-37
The Method Of Walther Heinrich Wilhelm Ritz Will Be Used To Find The Solution Of The Heat Equation That Considers The Internal Generation	38-42
Sustainable Road Construction in India: A State-of-the-Art Assessment of Waste Tyre Rubber Modified Bitumen	43-49
