Corresponding Author: Dr V M Das

Abstract: According to Hinduism, People have believed that if we undertake a journey to all these holy destinations then our all sins which we did in our past life get removed and opens all the doors for that person to get salvation. It is not true . But what brain sees is truth . Hence by knowledge (At UOG) realization of God Particles (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs Fig 1) at the time of prayer makes your place a true religious place . As it (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs) would persists even after end of universe . Having seen the God particles by brain , you are fit to get salvation . The same philosophy is applicable to all religious persons including Muslims . Self positioning system (SPS) in brain triggers to know our surrounding and our location . It is being used by animals and birds during migration or navigation on the Earth . Global positioning system (GPS - computer) helps us to know our location and different places and their route on Earth . GPS does not make us to be lost in big cities if we have loaded origin and destination in our computer . There is one more system called universe positioning system (UPS) , that helps to locate our true home from where we started our journey since origin of universe and home (Tachyons sea) of Almighty B.B.B as prayer reaches to Almighty B.B.B . Our journey did not start with fertilization of ova with sperm rather it had started since origin of the universe and our brain could predict our past and future transformations before we transformed into human beings . But Almighty B.B.B could tell our exact past and future transformations . Teleportation is the phenomenon made by Almighty B.B.B , as He descends from invisible universe (Tachyons sea) to Earth . First , message comes (first order of universe) to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in church and temple as idol worship . For example Lord Jesus , Lord Krishna etc All religions do IDOL worship of Two God particles in different ways (rituals) . Unless brain sees idol of two God particles during worship (Fig 32) or during namaz , devotee sees home of Almighty B.B.B (Allahatala or Tachyon sea) and structure of Tachyons (One Yang and many Yins) (Fig 30) by brain , worship is incomplete . The theory predicts that when Almighty B.B.B would teleport Himself as He Knows UPS (Creator of universe and Aliens) , could tell exactly where Aliens reside . Dirac equation is an illusion as mathematics does not have thought of mind and thought of Creator .

Keywords: Basic Building Blocks , Mind and Mass , Atomic genetics , Atomic transcription and Translation , Tachyons .

I. Introduction

1.1 How Would We Talk to Aliens? [1]

By Ross Pomeroy, RealClearScience | October 12, 2017 03:35pm ET
The Allen Telescope Array used by the SETI Institute (Search for Extraterrestrial Intelligence) to seek out signals from intelligent aliens.

Credit: SETI Institute

The search for extraterrestrials has gone on long before the SETI Institute was founded in 1984. Sixty years prior, on August 21st, 1924, American officials promoted a national day of radio silence, urging citizens to keep their radios quiet for five minutes on the hour, every hour, so astronomers could use a powerful radio receiver strapped to a dirigible floating two miles up to listen for any potential radio signals coming from Mars. Though the Red Planet was closer to Earth than any other time in the past century, the astronomers heard nothing. Such silence has been the depressing norm for alien hunters, but hope still abounds. The galaxy is a large place, and on a cosmic scale, we've hardly spent any time looking for extraterrestrials.

So, say our efforts one day come to fruition, and we make contact with an intelligent alien race. How the heck would we actually converse with them? First off, unless we somehow meet in person, talking will likely be a very sluggish process. Even if our neighboring star system Proxima Centauri housed an intelligent alien species, messages would take more than four years to travel between our two homes. Patience would be key. Most thinkers, including famed astrophysicist Carl Sagan, agree that mathematics could serve as the foundation for our discussions. With that in mind, British scientist Lancelot Thomas Hogben rafted a language system called Astraglossa. Communicated over radio signals, short pulses called "dashes" would represent numbers, and longer batteries of pulses called "flashes" would represent mathematical symbols like addition or subtraction. Once the basics of arithmetic are established between our species, Hogben imagined moving the discussion on to astronomy, a hobby we would obviously both have in common. After all, two aliens species talking about space would probably be like two Earthlings talking about the weather. Of course, there's no guarantee that our species would understand each other. While Astraglossa may make sense to Hogben and other human scientists, it could very well be gibberish to aliens. "We could be utterly, completely incomprehensible," xenolinguist Sheri Wells-Jensen told SETI Institute Senior Astronomer Seth Shostak on his podcast. "There's about 7,000 languages in existence on the planet today. Only about 50% of those have writing systems. So we can't guarantee that [aliens] have writing." Rather than pinning our hopes on language, Wells-Jensen recommends an "all of the above" approach in which we converse less and share more.

"You send out written stuff... and you send out recordings and visuals... maybe including brain recordings of people speaking." If that's not enough, back in March 2015, Shostak suggested that we transmit the entire Internet. "Such a large corpus — with its text, pictures, videos and sounds — would allow clever extraterrestrials to decipher much about our society, and even formulate questions that could be answered with the material in hand. Sending the web on its way would take months if a radio transmitter were used. A powerful laser, conveying bits much like an optical fiber, could launch these data in a few days."

If such an approach works, it could facilitate meaningful dialogue. Even if it doesn't work, we could at least all chuckle at the notion of showing Ancient Aliens Guy to real extraterrestrials.

Frank Drake is one of the principal founders of the search for extraterrestrial intelligence (SETI). He is best known for devising the Drake equation, which can be used to estimate the number of intelligent civilizations in our galaxy; he is one of a handful of scientists who have devised equations that have penetrated popular culture sufficiently to appear on t-shirts and other merchandise. Drake has played a key role in composing messages sent out from Earth in the hope that one day an alien civilization will discover and read them. In addition to his SETI work, Drake was the first person to map the center of the Milky Way galaxy, and he coined the word 'pulsar' to describe rapidly rotating neutron stars.

1.2 The Drake Equation:

$$N = R_* \cdot f_p \cdot n_e \cdot f_l \cdot f_i \cdot f_c \cdot L$$

where:

N is the number of detectable civilizations in space, R_* is the rate at which new stars form, f_p is the fraction of stars with planets, n_e is the number of planets per star where conditions are suitable for life, f_l is the fraction of planets where life actually emerges, f_i is the fraction of life-containing planets where an intelligent civilization develops, f_c is the fraction of intelligent civilizations that produce communications technology we can detect, L is the length of time the communicating civilization remains detectable

The Drake equation has become an icon of science – particularly astronomy, and even more particularly SETI. Drake has joined an elite group of scientists including Albert Einstein and James Clerk Maxwell whose equations have caught the public imagination (or at least the science nerd segment) enough to appear on t-shirts and other merchandise. The equation has also spurred fierce debates, because most ‘reasonable’ values inserted into the equation suggest our galaxy should be teeming with life and we should already have detected a civilization. Drake himself was over-optimistic about how soon we would detect an extraterrestrial civilization.

“I found I could reduce the whole agenda for the meeting to a single line [the Drake equation]. Of course, I didn’t have real values for most of the factors. But I did have a compelling equation that summarized the topics to be discussed... Sometimes people... think the equation is highly speculative. In fact, it is just the opposite, since each phenomenon it assumes to take place in the universe is an event that has already taken place at least once.”

1.2 What are the 'Char Dhams' and what is their significance in Hinduism?

According to Hinduism, People have believed that if we undertake a journey to all these holy destinations then our all sins which we did in our past life has remove and opens all the doors for that person to get salvation. Through this yatra you will found sense of heart purity, belongingness and act of self actualization in life. “**Char Dham**” is a circuit of four Holy destinations also known as abodes of God inside the four different directions in India, mentioned .This all about the Char Dham, the four pilgrims of India located in four different directions of India. But there is also an another Char Dham which is known as "Chota CharDham" situated in Uttarakhand (referred as "Land of Gods"). It is one of the most popular religious destinations in India, where millions of people visit every year. Through Char Dham Yatra in Uttarakhand, you can explore Badrinath, Kedarnath, Yamunotri & Gangotri the four holy places. The destinations (Chota CharDham) .

1.3 What is New Physics or Physics of Mind ?

Physics of Mind

Quantum Consciousness – According to Physicists and Biologist

The nature of consciousness remains deeply mysterious and profoundly important, with existential, medical and spiritual implication. We know what it is like to *be* conscious – to have awareness, a conscious ‘mind’, but who, or what, are ‘we’ who know such things? How is the subjective nature of phenomenal experience – our ‘inner life’ - to be explained in scientific terms? What consciousness actually *is*, and how it comes about remain unknown. The general assumption in modern science and philosophy - the ‘standard model’ - is that consciousness emerges from complex computation among brain neurons, computation whose currency is seen as neuronal firings (‘spikes’) and synaptic transmissions, equated with binary ‘bits’ in digital computing. Consciousness is presumed to ‘emerge’ from complex neuronal computation, and to have arisen during biological evolution as an adaptation of living systems, extrinsic to the makeup of the universe. On the other hand, spiritual and contemplative traditions, and some scientists and philosophers consider consciousness to be intrinsic, ‘woven into the fabric of the universe’. In these views, conscious precursors and Platonic forms preceded biology, existing all along in the fine scale structure of reality.

My research involves a theory of consciousness which can bridge these two approaches, a theory developed over the past 20 years with eminent British physicist Sir Roger Penrose. Called ‘orchestrated objective reduction’ (‘Orch OR’), it suggests consciousness arises from quantum vibrations in protein polymers called microtubules inside the brain’s neurons, vibrations which interfere, ‘collapse’ and resonate across scale,

control neuronal firings, generate consciousness, and connect ultimately to ‘deeper order’ ripples in spacetime geometry. Consciousness is more like music than computation. Colleagues Travis Craddock and Jack Tuszynski and I also study how anesthetics act in microtubules to erase consciousness, and with Jay Sanguinetti, John JB Allen and Sterling Cooley, we are studying how transcranial ultrasound (TUS) can be used noninvasively to resonate brain microtubules and treat mental, cognitive and neurological disorders. Many thanks to my assistant Abi Behar-Montefiore and Ed Xia for maintaining this website.

1.5 Mind and Mass Realities [2]

This is called Final Truth . Mind and Mass mysteries have emerged like
 OMNIPRESENT i.e. Every small and bigger units are made up of these B.B.Bs
 I am The origin of all every thing evolved from Me.—Gita 10/8
 These are divine in the sense that they talk with each other. They have power to transmutate to form any bigger unit of the universe . The triggering activity is atomic transcription and translation.

Fig. 1 Divine Mechanics Unit – CCP, CP and information s – Code PcPs with B-Bit – Mass

Atomic genetics is the branch of science where we investigate about fundamental interactions of the universe i.e. atomic transcription and translations . New words have been coined to understand hidden science of mind part of reality. Mind reality has been recognized as different faces by “I” about 5000 years back to Arjuna in Mahabharata.as shown in Fig 1. It is just like to understand any language through Alphabets. These are (different faces) Alphabets of mind reality. One Mind reality has one face identity and the second mind reality has second face identity and so on. The facial expression represents phenomenon of intelligence and different faces represent different types of properties carrying property. The open eyes means property is activated while close eye means property is inactivated. In spite of carrying properties conscious ness they also know how to conduct not only origin of universe but also how to create two different universe i.e. next creation could be different from this creation . In all, it is automatic system of the universe . The mind realities which are of good properties have devtas face identity (first five faces on both side) and those mind realities which are of bad properties have demons face identity (last four faces on both side) . These are named as code PCPs or messenger atomic genes . The central face is CCP or Thought script where all thoughts of the universe are banked . It is bank of data of all information s of the universe It is face identity of Anti mind particles as data of all information’s of the universe are stored as anti mind particles . It is the Time mind ness (biological clock)

that keeps on expressing different thoughts from this thought script (CCP) . There are four more faces (black bodies) shown on extreme left and right floating in fire are CPs (translating Atomic genes) . That translates the messages and realizes it and reacts accordingly.[2]

1.3. Messages From Biological world to understand B.B.B world as shown in Fig 2 [2]

Fig. 2 Parallel teaching by participatory science

The standard model not only modified rather it has been completed [3] with introduction of energized gravitons , primary fermions, primary bosons , Basic Building Blocks , Mind and Tachyons as shown in Fig 3

Standard model completed with Fundamental particles and Mind And Tachyons

Fig. 3 standard Model chart [3]

Fig .3.1 one creation and destruction cycle [4]

Participatory science has coined [5] some new words and there are some words which already exist in physics. Both these words are defined here and the definitions are according to participatory science. It has no relation with the definitions given in modern physics.

1.Mass -The part which gives shape to the smallest mass unit i.e. basics building blocks (B. B. Bs.) is called mass.

2.Matter :-Mixture of fermions and bosons or only bosons which are made up of mass (B.B.Bs) and that is why we realize their shape is called matter.

3.Inertial mass :-Mass (smallest mass units i.e. B. B. Bs) having inertial properties (classical inertia) either absolute rest or uniform motion in straight line is called inertial mass. Or Number of B. B. Bs. Per unit space present in bigger units is called inertial mass. Or Total matter contained by the bigger units or total number of fermions and bosons contained by the bigger units is called inertial mass. Therefore it never changes from place to place.

4. Gravitational mass :- The mass (interacting surfaces) which takes part in gravity (divine energized gravitons theory) interaction (which is due to mind) is called gravitational mass. When gravity interaction increases (number of divine energized gravitons increases) the interacting mass (interacting surface) also increases or when interacting mass (interacting surfaces) increases, gravity interaction (number of divine energized gravitons) also increases. Therefore gravitational mass (interacting mass or surfaces) changes from place to place. It is the fed mind that decides gravity interaction. We shall discuss it in gravity chapter and in atomic genetics.

5. Pure m (matter) mass :-matter mass (smallest mass unit or B.B.B) which have got inertial property of absolute rest.

6. Energy mass:-Energy mass (smallest energy mass unit B.B.B) which have got inertial property of uniform motion in straight line and which also gives shape to the bigger energy mass (Higgs Bosons etc) units.

7.m (impure matter) of $E=mc^2$:-Matter particles (fermions) which have got spin property are called impure matter particles.

1.4 Prayer message formation in brain.

Fig 4 Divine Mechanics - Prayer message formation in brain

In atomic transcription and translation of prayer [5], following steps take place on Yang B.B.B – B-Bit as shown in Figure 4.

1. CP removes RM (repressor mindness-green) from OM (operating mindness -orange) thus induction of atomic transcription triggers.
2. OM triggers activation of free mind particles (black -inactivated code PCPs) of that thought script (magenta) of “o god help me ”.
3. Free mind particles (black -inactivated code PCPs) get attached to anti mind particles script (magenta one to form messenger thought script of “o god help me ”.
4. Messenger atomic genes (black) get activated by anti mind particles thought script and further they get detached from anti mind particles thought script to form activated messenger atomic genes (activated code PCPs) (magenta) of “ o god help me ”
5. CP carries phenomenon of splicing by translating the messenger activated atomic genes (activated code PcPs) and finally there is activated message of “ o god help me” is formed .
6. CP represses atomic transcription by adding RM (green) to OM (orange) . Thus atomic transcription gets halt.

1.5 Having formed the message it comes out in three forms .

In atomic genetic engineering (prayer) we use our basic power i.e. power of B.B.Bs. Our B.B.B. (higher center) talks with highest center of the universe by sending the message by first transcription. Till today nobody knows how does the brain generate thoughts. I am going to tell you that mystery too. In the frontal lobe the neurons are responsible for thought generation. In the neuron there is electrical activity called pacemaker activity which is occurring between dendrites and the body of the neuron. The membrane of the cell is made up of atoms and atom is made up of B.B.Bs. At the level of B.B.B. say thought of 'O GOD HELP ME' is expressed. As a result programmed messages of O GOD HELP ME (code PCPs) are formed. Out of three programmed messages, one is carried by atomic genes to highest center of the universe. It is called **THOUGHT**

RAY (Quantum entanglement) which is made up of pure atomic genes and then the message goes through phenomenon called first transcription. They come out from brain directly. The other two messages are carried by photons from nucleus of atom to electrons. Here they are modulated on electrical activity of the cell called pacemaker activity. Further they are modulated on actions potentials going towards **REALIZING CENTER** situated in brain stem (RAS) and from RAS to speech area situated in the frontal area. Target B.B.Bs. of the realizing center finally realizes thought effect of O GOD HELP ME. While from speech area message goes to motor cortex again via RAS and from there to vocal cords and finally it comes out as a speech effect of O GOD HELP ME. In layman's terminology formation of the thought ray means PRAYER as shown in Fig 4

1.6 Where Does Prayer Message go ?

Prayer message goes as shown in Figure 5 to highest center of the universe via first transcription where it is realized and it is accepted, the highest center sends two messages to B.B.Bs working as higher center in cancer cell. These messages are message of inhibition of abnormal thought expression and message of activation of normal thought expression. Having received the messages, higher center stops expressing the abnormal thoughts and it starts expressing the normal thoughts. As a result, there are no more abnormal programmed messages and in place of that normal programmed messages are there. Now the messages have shifted from abnormal (5 and 6) to normal (2 and 3). This shifting of thought expression is called **ATOMIC GENETIC ENGINEERING** as shown in **Figure 4.1** The changed messages reach to target B.B.Bs. through same route. Having received the changed messages, target B.B.Bs. stop expressing the previous programming and they start expressing the normal programming. As a result the cancer cells transmutate into normal cells. **Or diseased cell gets cured [6]** as shown in **Fig 4.1**

Fig . 4.1 A.G.E and Final stamp of success to New Theory[6]

1.5 Message system of the Universe

Before the origin of the universe [2] nature had only one type of message systems which is called FIRST TRANSCRIPTION. Messages (Code PcPs) used to go from one B.B.B. to another B.B.B. by atomic transcription. Messages were carried by atomic genes (Code PcPs) with very very high velocity. It is the fundamental message system.

After the origin of the universe, nature created atoms. It also created one more message system called SECOND TRANSCRIPTION. Here the message (code PCPs) are carried by photons from one atom to another atom with velocity of light. Thus atoms ,molecules, cells, and even individuals talk with one another

After the formation of the cell , nature created one more system called THIRD TRANSCRIPTION .Here there is a message storage system formed by DNA. There are messenger molecules called mRNA that carry message from DNA script to cytoplasm where the message (code PCPs) is read or translated by ribosome and they work accordingly. Thus the messages reach to enzymes and hormones and finally messages reach to target units. Having received the messages, target units work accordingly. Finally life effects (metabolic) are observed. These three types of message systems are working in the nature. These message system are being used by the nature according to nature's need. as shown in Fig 5

Fig. 5 Messages system of the universe

1.6 How does nature work & triggering of normal & abnormal effects

To understand creation physics as shown in Fig 6 and Fig 7. . There are two types of thought stimulation [2] . one is conditioned thought stimulation and other one is unconditioned thought stimulation. stimulation of thought expression --- there are two types of thought expressions one is conditioned stimulation of thought expression, and other one is self stimulation of thoughts i.e. unconditioned stimulation of thought expression .at the time of the origin of the universe, all effects got created. the cause of all effects of the universe is thought expression. these thought expressions were triggered by unconditioned or self stimulated way . it is the first step and it is followed by programming or formation of programmed messages by code pcps. this programmed message moves from higher centers to target b.b.bs. it is called interaction. having received the messages, the mind and mass of the target b.b.bs. work in a synchronized way so as to produced the effects as thought by a the higher center. if the thought expression by higher center is normal, the shapes, properties and laws produced by target b.b.bs. would be normal and if the thought expressions are abnormal, the shapes, properties and laws would be abnormal. this is the basic concept of transmutation phenomenon. finally what we observe is called effect.appearance of new shapes. properties and laws is called transmutation. the first three steps are collectively called ccp. during transmutation process if ccp is written, it does mean that unless the thought, programming and interaction take place, nature cannot transmutate. Transmutation phenomenon is seen in particles, atoms, molecules and even in cells. The basic steps of any transmutation remain the same except that the thought expressions differ. The subatomic particle are made up of more fundamental particles called Basic Building Blocks (B.B.Bs) which are made up of mind and mass. These B.B.Bs are divine in nature with the result they talk with each other by phenomenon called atomic transcription and translation (thought expressions). The triggering of broken symmetry is caused by atomic transcriptions. Unless the atomic transcriptions occur, subatomic particles could never exhibit phenomenon of broken symmetry . So the broken symmetry is never spontaneous. It is being mis understood that sub atomic particles do have spontaneous activities as far as broken symmetry is concerned. Hence the Nobel prize physics 2008 awarded to this work is too early to give prize.

Fig. 6 Divine Mechanics – How Does Nature work ?

Fig. 7 Conditioned and Unconditioned thought expressions

1.7 Message network of the Universe (Feed Back Mechanism and different centers of the Universe)

With the origin of universe, nature first created primary units i.e. primary fermions (gravitation) and primary boson, these primary units are equipped with one higher center (one B.B.B.) and rest of the B.B.Bs. are working as lower centers or target B.B.Bs.[2] After primary units ,nature created secondary units i.e. secondary fermions and secondary bosons. similarly nature created tertiary units (lepto-quarks) and then quaternary units (protons& neutrons).Each unit is equipped with higher centers, lower centers and target B.B.Bs. After quaternary units nature created atomic units, molecular units, complex molecules of life units, organelle units, cell units, tissue units, organ units, system units and individual units. Each unit is equipped with higher centers, lower centers, and target B.B.Bs. Similarly nature created satellite units, planet units, solar system units, galaxy units, super galaxy units, dark matter layer unit. These units are also equipped with higher centers, lower centers and target B.B.Bs. Thus our universe is divided into different units and each unit is equipped with higher and lower centers.All higher centers are under control of highest center of the universe by efferent paths. This efferent path is made up of first transcription. Higher centers can send messages to highest center of the universe by afferent path or feed back path. Thus highest center of the universe is well informed about all effects of the universe. Messages can come from lower centers to higher centers and from higher centers to highest center of the universe via afferent path. The highest center of the universe can send messages to higher centers and from higher center to lower centers. There is an inter unit message network also which is made up of first, second and third transcription depending upon the nature's need. Thus the entire universe is under control of highest center

of the universe. Highest center can change any programming programmed by it during pre creation era as shown in Fig 8

Fig. 8 Messages Net work of the Universe

1.8 Origin of the universe [7]

UNIVERSE "I"

Fig. 9 Development of the Universe

Before the origin of the universe, these Basic Building Blocks (B.B.Bs) as shown in Fig-3 were in the form of tachyons as shown in Fig- 9 [7]. It means that at that time the tachyons were everywhere in the universe. Let us look at the structure of tachyons; it is made up of one matter B.B.B. (YANG) and many energy (YINs) B.B.Bs. Initially out of the infinite tachyons, one became the highest center of the universe. Messages used to go from highest center to rest of the universe and messages could come from rest of the universe to highest center of the universe by atomic transcription. Thus highest center had fed its thought to rest of the B.B.Bs. that would take part in creation - that they would express only those thoughts to give desired effect as wished by the highest center of the universe. So all B.B.Bs were informed about their role before creation of the universe. In pre-creation era programming of the future universe was done by highest center of the universe. Our universe is oscillating and it is a divine universe. It means that it has a creation phase and a destruction phase. During creation phase tachyons break into their B.B.Bs. and from these B.B.Bs, formation of fermions and bosons take place as shown in Fig 3.1. After the creation phase, destruction would start and in this phase all created particles would again break into their B.B.Bs and finally tachyons would form. At the time of origin of the universe, all the effects got created. These effects are taking of different shapes and appearance of properties and laws. All these effects are studied in various branches of science.

With the origin of the universe, nature first created a sphere of COLD DARK MATTER (C.D.M) and canals in it. With the result space got created. At the other end of the canals, hot reaction started (the relics are back ground radiations 2.7 degree K of our hydrogen clouds). As a result hydrogen clouds and lot of radiations were created. The empty canals were filled by these hydrogen clouds and radiations and thus QUASARS appeared in the universe. Simultaneously C.D.M. layer started expanding and clouds and radiations kept on coming in this closed universe as shown in

Fig 9 . With the passage of time more and more C.D.M. layer formed, more and more quasars formed. The hydrogen cloud came in this closed universe. They started running towards C.D.M. layer as they were attracted by the gravity of C.D.M. layer. Those clouds, which were nearer, moved faster than those, which were away from CDM Layer. The **HUBBLE LAW**, can thus be explained. With some more passage of time, clouds were joined to form **GMC** (giant molecular clouds). Later by self-gravitation different proto stars, proto planets, proto satellites were formed. Finally stars became bright and thus bright galaxies appeared in this universe. Our universe is still in expansion phase and creation is still going inside quasars. It is to be remembered that highest center of the universe does not come in the visible universe. It keeps on receiving the messages by atomic transcription and it has power to change any programming programmed by it during pre-creation era.

It is the atomic genes which constitutes mind part of reality. Mind incorporation in physics is awaited as theory of every thing is not yet investigated . I have investigated theory of every thing (ToE) and I found that while studying unified theory at the time of origin of the universe by Hoyle Narlikar universe , it was mind reality that triggered symmetry breaking phase . It is mind reality that triggers oscillation phenomenon of the universe. It is the mind reality which is behind perfect cosmological principle . There is nothing like artificial intelligence in the universe . These mind particles constitute intelligence of the universe that controls the deterministic order of the universe. It is the mind reality behind all effects of the universe. But this is not our mind rather it is mind of Almighty B.B.B (Yang B.B.B or matter B.B.B. or Male B.B.B working as Highest center of the universe) . His mind could be manipulated by prayer only . as shown in figure 9.1 and 9.2

Figure 9.1 Hoyle Narlikar Universe OR Universe “I”

Fig 9.2 Total scenario of Truth Mind and Mass

1.9 DM and DE i.e. energized gravitons and energy pool of the universe as shown in Fig 10 and Fig 11 [8]

Fig. 10 Structural configuration of Leptons and Quarks as regard DM and structural configuration of DM and DE at micro level

Fig 11 structural configuration of DM and DE at macro level [9]

1.10 Divine Mechanics and Brain Computation

Learning and Memory and information s (Code PcPs) Net work in Brain [10]

Divine Mechanics and Brain Computation

Fig 12 Divine Mechanics of Brain Computing System – Learning and memory

At all steps , these are B.B.Bs (B-Bit) that are responsible for information’s control and triggering . If CCP is written it means unless atomic transcription and translation occur , brain cannot have learning and memory triggering and control and it is called Divine mechanics of Biology and it is life . These are higher thought expressions of B.B.Bs . In Bits of classical computers and qubits of QC , the thought expressions are lower and different but the mechanics (DIVINE) remains the same. as shown in Fig 12

Physics dictates the lowest limit of size of chip **but DIVINE mechanics does not**
Moore’s Law Modified and Completed

Fig 13- The Theory of Computers and Brain are same – DIVINE MECHANICS

(Structural and Functional smallest Bit (mass) is B-Bit of the universe and the Divine Mechanical Unit is CCP , Code PcPs and CP.)

divine mechanics THE THEORY OF cOMPUTERS AND bRAIN IS same AS shown in Fig 13 Physics dictates the lowest limits of the size of chips [11]. But divine mechanics does not . Hence the bit is a typical unit of information. ((Classical and Quantum Bit) is wrong and to describe informations by adding qubit is also illusion as in complicate system ,it is the different thoughts expressions that describe informations . Informations are separate (Code PcPs) and bits (Electron of transistor) qubits (electron of diamond crystal) are separate. At DNA level the bit is nucleotide (A,T,C,G) and at Atomic level the bit is photon and electron , at particle level (secondary fermions and secondary bosons) the bit is primary fermions and primary bosons and informations are still code PcPs and at B.B.B level the bit is B.B.B (Yang mass and Yin mass - B- bit) it self and the information is carried by Code PcPs but at all level of all bit units the information storage system is CCP (Physiological arrow of Time) it never dies even after destruction of the universe. Hence information s are eternal . In computers, Bit is a structural configuration that describes information s of the system and information s are in form of Code PcPs. The working of the bit is triggered and controlled by thoughts of higher centers that form that bit. If the bit is classical (transistors of chips) the effect is different . But if the bit is qubit with entanglement the working is triggered and controlled by thoughts of higher center that form that crystal . In both the effect of describing informations would be different.

One is classical (thought expressions are fixed and limited)and other one is quantum (thought expressions are changing and more wide to describe the more wide complicated system to have fast results .) . In life sciences in Brain the bit is again Photon and the information s are Code PcPs and they are triggered and controlled by CCP of higher centers that is triggered by DIVINE MECHANICS . In life sciences the CCP (cryptography) of B-bit expresses informations (Code PcPs) which were not fed like speaking Lie and unlike Bit of classical computer and qubit of QC it shows phenomenon of forgetfulness and IQ phenomenon (mental age /real age) . It is Higher functions of B.B.B or B Bit and it is life . Hence there is difference in some aspect of DIVINE MECHANICS \of Computers computation and Brain computation

II. Structure

2.1 Comparative study of Biological SPS – and GPS system of computer world

Fig 14 Comparative study of Biological SPS – and GPS system of computer world --- Place Cells , Grid Cells , sensory inputs (location) and RAS form SPS System (self positioning system) of Biology While Master control station , (ground Segment) Satellite (Space Segment) , and Mobile (user Segment – sensory input and final display messages) form GPS System of computer world)

Fig – 15 Two information s of mapping and location are received by two bits separately of place cell . Further these information s are sent for computing to One B-Bit where computing is done by CCP and final display (Code PcPs) after splicing by CP is relayed to RAS .

Fig -16 – Rat’s response to SPS depends upon the Rate of cycle of sense of direction . If Rat is moving Very fast , it means cycle of SPS is expressing very fast and vice versa

2.2 Mystery of bird navigation system solved- by Quantum Entanglement

Super specialized magneto receptors in pigeon beak i.e. Balls of iron. We do know sensory receptors are required to input information in brain through neurons only whether it is specialized senses or general senses. There are four types of messages system in universe (Fig -5). These messages systems are used according to nature's need.

1. First transcription ---- Quantum entanglement – where electrons contact each other and they set their spin according to their wish. If one is spin up the other one is spin down. Two nucleus could be connected by Quantum entanglement [29]. In prayer we talk with Highest center of the universe. Second transcription -
 - (a) where photon carries the informations (Code PcPs) by phenomenon of Conduction, convection and radiation ex – Action potential, current, our mobile, TV informations and internet, red shift, blue shifts.
 - (b) Or electron carries the charge or informations through a field (Divine conduction mechanism) ex – EET (electronic energy transfer) in photosynthesis, cyclotron, LHC.
2. Third transcription – where mRNA carries informations from DNA script during biological transcription and translation

Fig 17 Quantum entanglement between atomic nucleus of Iron Ball and Atomic Nucleus of Place cells. It is similar to chip of diamond found in QC

During navigation (Fig 17), birds get their magneto-receptor stimulated by magnetic fields (photons) and it is interaction between electron of the iron balls and magneto photon. The nucleus (higher center or B.B.B) of the atom of the iron ball receives information (code PcPs magnetic direction and magnitude) via –ve afferent. Having received the messages of magnetic direction and magnitude, it sends messages to atomic nucleus of place cells as information of location of both direction and magnitude as received by electron of iron ball through quantum entanglement (first transcription). Hence no need of magnetic neurons to be there in beak of pigeon. The one bit i.e CCP having received sensory input of magnetic direction and magnitude, it relays this information to CCP which is computing other information coming from grid cells (Code PcPs mapping) and sensory input (code PcPs ear as regard position of body through semicircular canal (vestibular nerve) and code PcPs eyes as regard attitude location or ground location etc) from ear and eyes. Hence

effigy of bird navigation is following where magneto receptors are being used as sensory input for sense of direction by birds . (Fig 18)

Fig-18 Depiction of Birds navigation and Cycle of Sense of Direction

2.3 Universe positioning system - We could see only 30% of universe through telescope (Eyes) . Rest universe could be seen by brain only (participatory science) Fig 19 – Fig -29
 The Atlas of The Universe -This web page is designed to give everyone an idea of what our universe actually looks like. There are nine main maps on this web page, each one approximately ten times the scale of the previous one. The first map shows the nearest stars and then the other maps slowly expand out until we have reached the scale of the **entire visible universe**.

Fig 19 - Sun where we are located

Fig 20 Sun where we are located

Fig 21 Sun where we are located - Orion arm of Milky way Galaxy

Fig 22 Sun where we are located – Milky way galaxy

Fig 23 Milky way Galaxy where we are located

Fig 24 Milkyway Galaxy where we are located

Fig 25 Virgo Cluster where we are located

Fig 26 Virgo Cluster where we are located

An all-sky plot of the 60000 brightest galaxies shows how galaxies clump together into large supercluster formations. The positions of some of the major superclusters are marked although only the nearest superclusters are prominent. Only four of these galaxies are visible with the naked eye. The large, dark, circular band is the plane of our own Galaxy where it is difficult to see distant galaxies because of all the foreground gas, dust and stars.

Fig 27 Virgo Cluster where we are located

Fig 28 - Virgo Cluster where we are located and only 30% of universe is visible by telescope . Rest is visible by Brain Only (Participatory science)

Figure 29 Hoyle Narlikar Universe OR Universe "I"

2.4 Religion "I" and Almighty B.B.B. , The Creator of Universe OR Universe "I"

Muslim do believe that Allaha means The Creator only . After researching 99 names , we found that Allaha means – Primary God, Secondary God , tertiary God , trinity , and Tawhid. in the light of science . This portrait represents Tachyon particle (One yang B.B.B and many Yins B.B.B) apart from Creation and Destruction of universe under control of Almighty B.B.B . The admiring of this Almighty B.B.B (Allahatala) is Allaha ho Akbar .

One Yang , Blue B.B.B and Many Yins , Flames Red B.B.B
Muslims worship smallest Idol of the Universe

Allaha Ho Akbar – Almighty B.B.B – Smallest Idol worship

Fig 30 The Admiring of Almighty B.B.B (Allahatala) the Creator of the universe is “Allaha Ho Akbar” made up of two God particles or Tachyon (Religion “I”)

2.5 Answering Who am I ?

1. I am the origin of All . Every thing evolved from Me. (Two Basic Building Blocks -- made up of Mind (CCP, Code PcPs and CP) and Mass)

2. I am Time . a Psychological arrow of time. (inner information s , they never die -- immortal -- even after destruction of universe) -- eternal reality --- CCP, code PcPs and CP)

b Cosmological arrow of Time (Outer information s (Code PcPs) coming to us - mortal - created with origin and die after destruction of the universe -- under control of Almighty B.B.B) c Thermodynamics Arrow of Time (Same as Cosmological arrow of Time)

3 . I am science of self knowledge . (Information s Code PcPs created by Almighty B.B.B that are read in different sciences and mysticism -- information s are true or False)

4. I am the origin and dissolution of entire universe . (Almighty B.B.B - Yang B.B.B , working as highest center of the universe - Prayer reaches to this B.B.B)

5. I am Life and death . (Higher thought expressions of two B.B.Bs is Life)

2.6 Defining God . God has been classified in five ways – Scientific Names .

Muslim do believe that Allaha means The Creator only . After researching 99 names of Allaha , we found that Allaha means – Primary God, Secondary God , tertiary God , trinity , and Tawhid. in the light of science .

1. Primary God --- Two basic building blocks
 2. Secondary God -- Almighty B.B.B. (Yang working as Highest center of the universe - The creator B.B.B
 3. Trinity (secondary God) Avatar of Almighty B.B.B (Almighty in flesh form on Earth)
 4. Tertiary God - Creation (sun moon, galaxy , creatures etc (made up of primary God by thought of Almighty B.B.B)
 5. Tawhid - One Absolute I -- made up of Infinite Tachyons -- made up of Two basic building blocks - symmetry phase of universe
- For Example

	Religious names of God	Secularized names of God or Scientific names	photo depiction
1	•Christian God – Jesus	Trinity (Almighty B.B.B in flesh form)	
2	•Islam – Allahatala	Secondary God (Almighty B.B.B - Yang) Creator (smallest Idol)	
3	•Hindu God – Ram	Trinity (Almighty B.B.B in flesh form)	
4	•Jainism God --- Nirakar - postulate an eternal universe	Taw hid .(one absolute God or I made up of two B.B.Bs)	
5	•Vedas – worship -Creation Sun , moon , plants , rain etc	Tertiary God (Visible units – made up of Two B.B.Bs)	
6	Hindu Goddess Durga and Her Nine Avatar	Trinity (Yin B.B.B In flesh form)	

Fig 31 Scientific Nomenclature of God

But no religion discussed Primary God (two God particles) made up of mind and mass - the eternal structure or body , as Primary God (Two God particles) is the subject of research through science , and it would be researched by science only . Thus the Geeta’s secret is the same as Quran’s secret and Bible’s secrets . The Geeta’s secret is – **I am the origin of All . Every thing evolved from Me – 10/8**

2.7 How to know Religion “I” Or Two God Particles

What eye sees is different (illusion) than what brain sees (truth) . In science hypothesis is made and that hypothesis is confirmed by observation . Two God particles hypothesis is based on observation that Super unification is not proven yet . When photo depiction of two God particles is made by brain , it was same as made by Almighty B.B.B thousands of year back by clue pictures given by Hindu spiritualism (Fig 1) . what Idol worship (Eyes see - sculpture – statue) is defined before the research of Two God particles is illusion (Eyes see - sculpture – statue , set of informations Code PcPs) as the real idol worship is worship of two God particles which constitute big Idols (Eyes see - sculpture – statue , set of informations Code PcPs) (Brain sees-Two God Particles – Not set of informations Code PcPs) . On this basis the all created units (sun , moon fire , rain) in created universe are also worshiped as idol worship as they are made up of these two God particles , Though they do not look as idol . Same is true for idols of trinity . (Lord Jesus , Lord Ram etc) as idol concept started with idol of these trinities since two God particles idol concept was not written any where in books before their search by me .by science . Big Idols worship would end with end of Universe . But Idol worship of B.B.Bs (Not set of informations Code PcPs or originator of different sets of informations Code PcPs or **Satyam Shivum Sundarum**) would persist even after destruction of universe .

Fig 32 Eyes see different (illusion) than what the brain sees (Truth)

2.8 Order of Almighty B.B.B or Modification in Article 25 of Indian Constitution Fig 32

Freedom of conscience and the right freely is Restricted as No one on this Earth Knows right knowledge as regard God except University of god (UOG). You have to profess, Practice and propagate only those thoughts which are taught by UOG only .

1.To profess, (admit) - One cannot admit wrong believes as regard GOD - Wrong believes

1. God is One
2. God has No picture depiction .
3. Idol worship is fictitious worship at highest consciousness .

Right Believes

1. There are TWO God --or Two God Particles - Or Two Basic Building Blocks .
2. It has Photo depiction of Male an Female Called Stayam Shivum Sundarum
- 3.They are smallest Idols of The universe and Their Idol worship persist even after destruction of the universe

2.To practice (perform worship etc) All religions do IDOL worship of Two God particles in different ways. Unless brain sees idol of two God particles during worship , worship is incomplete .

3.To propagate religion (Spread)

1. Science of prayer - Pl read Introduction 1.4 onwards
2. Know allah (tawhid and trinity) in the light of science - V.M.Das --**Know allah (tawhid and trinity) in the light of science, International Journal of Information Research and Review Vol. 2, Issue, 05, pp. 711-718, May, 2015**
- 3 . V.M.Das , Idol Worship Means Worship of Two Basic Building Blocks (Not Set of Informations Code PcPs) , The smallest Idols Of The Universe . Fundamental Belief Of All Religions Of The World Is Same . On This Fundamental Basis Secret Of Gita , Quran and Bible is Same . Admiring Of Almighty B.B.B Idol (Allahatala- Creator of All Sets Of Informations Code PcPs) is Allaha Ho Akbar . *International Journal of*

Information Research and Review Vol. 04, Issue, 09, pp 4537-4557 , September (2017)are to be spread by all religions of the Earth . Rest teaching of religions as regard God has been restricted by Almighty B.B.B

2.9 Say No to Char Dham Or Macca – Madina etc Only One True Religious Place (holy place) where one does prayer

No need to Visit religious places (Four Dham In Hindu Or Macca Madina In Muslim etc) as it is illusion or fake realization (Eyes See Set of informations or Code PcPs) . It would end with the end of Universe . What eyes see is illusion . But what brain sees is truth . Hence by knowledge (At UOG) realization of God Particles (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs) at the time of prayer makes your place a true religious place . As it (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs) would persists even after end of universe . Having seen the God particles by brain , you are fit to get salvation .

What eyes see is different (illusion) than what brain Sees (truth) . Having searched basic building blocks of the universe , it is now proved that every thing is made up of these two god particles (Fig 1). But these two god particles are seen by brain (hypothesis) only as they are invisible by any microscope.

Fig 33 Say No to Char Dham (Holy places) Or Macca – Madina etc Only One True Religious Place (also a Holy Place) where one does prayer

Teleportation and Universe Positioning System – Prediction of Theory Of Everything

Teleportation is the phenomenon made by Almighty B.B.B (Power of Almighty and Unconditioned Thought expression and New Law of divine physics) . As He (Allahatala) descends from invisible universe (Tachyon sea) to Earth . First , message comes to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in to any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in church and temple as idol worship . For example Lord Jesus , Lord Krishna or Lord Ram etc All religions do IDOL worship of Two God particles in different ways.

Fig 34 Phenomenon of Teleportation and UPS in the mind of Almighty B.B.B (Allahatala) in Universe "I"

III. Conclusion

Dirac equation is illusion as mathematics does not have thought of mind and thought of Creator . Self positioning system (SPS) in brain triggers to know our surrounding and our location . It is being used by animals and birds during migration or navigation on earth . Global positioning system (GPS - computer) helps us to know our location and different place and their route on Earth . GPS does not make us to be lost in big cities if we have loaded origin and destination in our computer . There is one more system called universe positioning system (UPS). Our journey did not start with fertilization of ova with sperm rather it had started since origin of the universe(Tachyon sea) and our brain could predict our past and future transformations before we transformed into human beings . UPS helps to locate home of Almighty B.B.B (Tachyons Sea) as prayer reaches to Almighty B.B.B . All religions do IDOL worship of Two God particles in different ways. Unless brain sees idol of two God particles during worship (Fig 32) or during namaz devotee sees home of Almighty B.B.B (Allahatala or Tachyon sea) and structure of Tachyons (One Yang and many Yins) (Fig 30) by brain , worship is incomplete Teleportation is the phenomenon made by Almighty B.B.B (Creator of universe and Aliens) . As He descends from invisible universe (Tachyon sea) to Earth . First , message comes (first order of universe) to Earth B.B.Bs via first transcription (quantum entanglement) and B.B.Bs of Earth transform in to any shape (Trinity – Human beings or Almighty B.B.B in flesh form) and Trinity does such deeds that they occupy place in church and temple as idol worship . For example Lord Jesus , Lord Krishna or Lord Ram etc **The theory predicts that when** Almighty B.B.B teleports Himself , He (Creator of universe and Aliens) could tell exactly where Aliens reside in universe "I" . It is being believed that Muslims do not do idol worship . It is myth . Before origin of the universe all things were in form of tachyons particles which are made up of two basic building blocks – Yang and Yin or mind and mass part of reality (Not set of informations Code PcPs – Originator of all sets of informatins Code PcPs) . To understand concept of idol worship we have to understand Basic Building Blocks (B.B.B – Mind – CCP , Code PcPs or set of informations and CP and Mass -- Fig 1). The Creator B.B.B or Almighty B.B.B has considered them as smallest idols. Hence He has made idol picture of male and female parallel to these B.B.Bs Fig 1 . The fundamental belief of all religions on which the base (Main Pillars) of all religions is stood are these two God particles and the fundamental worship is Idol worship of these two God particles . At the end of universe all sciences fundamentals (shapes , laws, and properties) would be no more but religious fundamental about two God particles and their Idol worship would persist in form of "I" or "Satyam Shivum Sunderum "

Article 25 of Indian constitution has been modified by order of Almighty B.B.B . Freedom of conscience and free profession, practice and propagation of religion has been restricted or banned . No body on Erath could spread wrong believes of God like - God is One . God has No picture depiction . Idol worship is fictitious worship at highest consciousness . Instead of that one would spread right scientific believes like There are TWO God --or Two God Particles Or Two Basic Building Blocks .It has Photo depiction of Male

and Female Called Stayam Shivum Sundarum . They are smallest Idols of The universe and Their Idol worship persist even after destruction of the universe . All religions are unified to Religion "I" as it would persist after destruction of the universe . Hence what eyes see is different (illusion) than what brain sees (Truth) and the truth is -- One absolute (Infinite) Universe (I) , One Teaching Of Two God Particles (I) And One Religion "I" that will persist even after destruction of universe . Hence teaching regarding God in different religions (Hindu , Islam and Christianity etc realizations) are illusion. They donot teach about Two God Particles – The Real eternal God Particles . Only **Two God Particles** "I" will persists even after destruction of the universe . **All religions do IDOL worship of Two God particles in different ways..**

According to Hinduism, People have believed that if we undertake a journey to all these holy destinations then our all sins which we did in our past life has remove and opens all the doors for that person to get salvation. It is not true . But what brain sees is truth . Hence by knowledge (At UOG) realization of God Particles (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs Fig 1) at the time of prayer makes your place a true religious place (Holy place) . As it (Forming Images Of Two B.B.Bs in Brain – not set of informations or Code PcPs) would persists even after end of universe . Having seen the God particles by brain , you are fit to get salvation . The same philosophy is applicable to all religious persons including Muslims .
